🧩 SUMMARY

Automation:
Cybersecurity Analyst, AI Automation Specialist, and Software Developer with expertise in team coordination, AI-powered automation, prompt engineering, and cybersecurity operations. Skilled in designing custom tools, automating workflows, and integrating AI technologies with security processes to improve efficiency and innovation. Proven ability to lead projects, develop AI-assisted solutions, and transform ideas into functional applications through advanced prompt design, OpenAI Codex, and software development practices. Creator of an AI-powered Windows Security Scanner and Antivirus solution, demonstrating a strong commitment to innovation, security, and emerging technologies.

👛 EXPERIENCE

Cybercrime Wing of Meghalaya Police Internship

09/2024 – 10/2024

- During my month-long internship with the Cybercrime Wing of Meghalaya Police, I assisted in investigating cybercrimes, analyzed digital evidence, and supported community outreach efforts.
- This experience enhanced my knowledge of cyber laws and the practical challenges of law enforcement in combating cyber threats.

Mahindra Defense System Limited SOC Analyst Internship

04/2023 – 10/2023 | Lucknow

- During my six-month internship at Mahindra Defense System Limited, Lucknow as a SOC Analyst, I monitored security incidents, analyzed alerts, and collaborated on enhancing protocols.
- This experience strengthened my skills in cybersecurity and incident response.

Ferrando Memorial School Teacher

02/2022 – 02/2023 | Williamnagar

- From February 2022 to February 2023, I taught at Ferrando Memorial School in Williamnagar, where I developed and delivered engaging lessons, fostered a positive learning environment, and supported students' academic growth.
- This experience honed my communication skills and reinforced my passion for education.

RGSA (ENTECCO Company) Technical Assistant & Trainer

11/2025 | Shillong

Trainer & Technical Assistant with experience in delivering community awareness programs, digital literacy training, stakeholder coordination, and project support under the RGSA Project. Skilled in communication, documentation, community engagement, and capacity-building initiatives at the grassroots level.

PROJECTS

AI-Windows-Security-Scanner

An AI Windows Antivirus and Scanner

Developed an AI-powered Windows Security Scanner and Antivirus using Python and AI-assisted development methodologies. Designed to automate security assessments, detect potential threats, and enhance endpoint protection through intelligent security monitoring and analysis.
